

Pegiva Retro Sun

Longer and slimmer than the „Classic“, the „Retro Sun“ SC still goes strong with a luxurious and spacious interior. Although many of its details follow the classic leader, it unifies both: the retro style of the „sixties“ and the performance of modern pleasure crafts, the look of which will still be attractive even after years. Pegiva Retro Sun yet stands for highest perfection of yacht building.

To satisfy both traditional and modern tastes we have carefully blended the two and come up with the “Retro Sun”. This is a very exciting concept both in aesthetics and durability. The Retro Sun is constructed using fibreglass composite materials for hull and superstructure, and with the addition of Brazilian Mahogany inlaid

decks, this feature adds a rich nostalgic look which will take you back to the 1950's and 60's when boating was more about character and styling. To really add to the nostalgic looks, the Retro Sun also comes with a classy flush fitting convertible roof which folds down out of sight in a matter of minutes. The icing on the cake you could say...

Technical Data:

▪ length over all	7,50 m
▪ beam o.a.	2,30 m
▪ draft under propellers	0,77 m
▪ weight, unladen	1,80 t
▪ Treibstoffta fuel tank	200 l
▪ Max. Persons	5
▪ Max. speed, 1/3 laden	45 / 42 kn
▪ cruising speed	26 / 30 kn
▪ engines	

MerCruiser 350 mpi Horizon V8 221 kw / 300 PS

Steyr 256H Turbo Diesel 6 in-line 184 kW / 250 PS
(Bodenseezulassung)

2 x 184 kW / 250 PS (Bodenseezulassung)
